

## Regular Meeting of the Township Committee.

The deliberations of the members of the Township Committee were continued on Wednesday night by cheerful strains of music wafted from the adjoining hall, where the children of the Temperance School were holding high carnival. Englewood took up a large portion of the time in discussing road matters. In establishing a grade by which to put down a sidewalk in front of T. W. Langstroth's property, it was found that in order to correspond with the grade map of Washington street made by a former surveyor, that considerable filling would have to be made.

Mr. Reimer was instructed to make a new map of the street between Ridge and Ridgewood avenues. Mr. Reimer called attention to a similar difficulty at Morris Place. The surveyor was also instructed to make a map of Morris Place from Bay avenue to Franklin Road. Mr. Cook stated that Mr. Stewart was erecting a new house on Ridgewood avenue near Baldwin Street, and that there was a water on Ridgewood avenue at this point, the property owners would like to have the water removed. It was stated that Ridgewood avenue was a county road and the county would have to attend to it. A member said that the county had practically turned the road over to the township and of late years the town had done all the work on it. Mr. Reimer said that at this point the road was almost a dead end and it was a difficult matter to tell what way the Road Board had intended the road to run. The surveyor was instructed to consult the original map made by the County Engineer and see what came of it was originally intended the road should run.

The drain under Glenwood avenue through J. B. Harvey's property was a matter that was called to the attention of the Committee. The Town Council said that by the power conferred on the Committee in section 15 of the road act, they could open the drains and in the event of any opposition on the part of the property owners the latter would lay themselves liable to an action at law. The clerk was instructed to notify Mr. Harvey of the action of the Committee to open the drain unless he did it himself within five days from the date of notice. Mr. Cook requested power to order two more gas lamps on Ridgewood avenue and two on Fremont street. He also asked for the erection of two water hydrants on Linden avenue, one on Highland avenue, one on Berkeley avenue and one on Ridgewood avenue. Mr. Cook informed the Committee that he had been instructed by Mr. Benson to say that if the Committee would place two hydrants instead of one on Highland avenue, he, Mr. Benson, would assume the expenses of the same for three years. The matter was referred to the Water Committee. Mr. Freeman called the attention of the Committee to a petition from Excelsior Hose Company for a hydrant at the corner of James street that had been sent in some time ago. He also suggested the erecting of a hydrant at the corner of Benson and Basinger streets.

Mr. Eppley was given privilege to operate a portion of the Orange and Bloomfield Street Railway for thirty days pending the acceptance of the road by the Committee. Mr. Eppley also called the attention of the Committee to several things connected with the railway, among them the saving of all liability for damage while operating temporarily, the construction of iron bridges at Bloomfield avenue instead of the oak ones called for by the ordinance, the removing of the debris along the line of the road by the Committee as it was township property, and the postponing of paving the newly filled ground on Prospect street for at least six months.

The Orphan's Picnic. The Morris Canal Company's repair boat in charge of Mr. C. Hotchkiss, and towed by two of the Company's most prepossessing mules, arrived at Pleasure house on Thursday morning about 10 o'clock, having on board Matron Mrs. Van Vliet, a number of assistants, and 75 children from the Newark Orphan Asylum. The barge had been fitted up with awnings and benches for the occasion, rendering the sail on the canal a very pleasant one. The excursionists were greeted at the time by the ladies of the Bloomfield Auxiliary Society, who were there to tender their customary annual picnic to the orphans. The day was all that could be desired in regard to the weather, and the children enjoyed it immensely. An abundance of refreshments had been supplied by friends, consisting of cream, cake, lemonade, etc. These were conveyed to the barge through the kindness of Messrs. Wm. A. Baldwin and R. N. Dodd. The children entertained their friends with singing exercises. Rev. H. W. Ballantine and Rev. Charles A. Cook talked to the little ones under the pavilion. At 1 o'clock the boat was again boarded and the children started on their homeward journey with cheers, having spent a very happy day. The neat appearance of the children, their remarkably good behavior and excellent discipline were favorably commented on.
